Professional Summary

AI Integration Specialist and Full Stack Developer Specialized in developing practical AI-driven software products to be used by organizations. Proficient in implementing AI APIs by OpenAI, Creating efficient backend designs, and deploying powerful applications.

Knowledgeable in React.js, Node.js and FastAPI (Python), with practical skills in automation, orchestrating APIs, and databases. Passionate about advanced AI applications such as those built using the RAG approach, chatbots, and workflow automation.

TECHNICAL SKILLS

AI & Integration:

OpenAI API, Prompt Engineering, AI Automation, API Integration, RESTful Services, Webhooks

Programming Languages:

Python, JavaScript, TypeScript

Frontend Development:

React, Vite

Backend Development:

Node.js (Express), FastAPI

Database:

PostgreSQL, SQL, Prisma

DevOps & Deployment:

AWS, Hostinger, DigitalOcean, Nginx, PM2, VPS Deployment, SSL

Tools:

Git, GitHub, VS Code, Postman, Google Analytics (GA4), Google Search Console

EXPERIENCE

AI Integration Specialist & Freelance Developer
Self-employed | Remote

WestBengal, India
2025 – Present

- Integrated AI-powered solutions using OpenAI APIs into business websites, automating customer interactions and repetitive workflows
- Developed full-stack applications across Web, Android, and Windows platforms using React, Node.js, and Python
- Designed scalable backend architectures including database systems and RESTful APIs
- Managed secure VPS deployments using AWS, Hostinger, and DigitalOcean with Nginx, SSL, and performance optimization
- Improved system efficiency, reliability, and automation for client applications

PROJECTS

TempGenpro | tempgenpro.com

2025 – 2026

- Developed a real-time AI-powered system for automated content generation and secure communication using Node.js, React, and Socket.io
- Designed webhook-based architecture enabling sub-second response times and efficient data flow
- Deployed production-ready infrastructure with Nginx reverse proxy, SSL encryption, and PM2 for process management

Technologies: Node.js, FastAPI, OpenAI, React, TypeScript, Socket.io, PostgreSQL, Prisma, Nginx, PM2, JWT

Family Bookstore (E-commerce Platform) | familybookstore.in

2025 – 2026

- Built a scalable e-commerce system with role-based access control and secure authentication using JWT
- Implemented database synchronization to maintain consistent and reliable user data
- Enhanced application security and ensured stable system performance

Technologies: React, TypeScript, Node.js (Express), PostgreSQL, JWT, Bcrypt

Madhyamgram Rabindra Academy (madhyamgramrabindraacademy.in)

2025 – 2026

- Developed a centralized platform to manage results, fees, and attendance efficiently
- Automated Excel-based result processing with grading and PDF report generation
- Implemented real-time notifications and smart attendance tracking system
- Reduced manual workload and improved accuracy in academic and financial records

Technologies: React, TypeScript, Vite, Node.js (Express), PostgreSQL, JWT, html2canvas, jsPDF, SSE, Nginx, PM2

EDUCATION

Techno India University,
Bachelor of Computer Applications (BCA)

West Bengal, India
2023 – 2027

Narayana School,
12TH CBSE
10TH CBSE

West Bengal, India
2023
2021

CERTIFICATIONS

Techno Billion AI
ChatGPT & AI Learning
